

October 25, 2006

From: Raleigh Durham RC (RDRC)

To: Sponsors of the Fly for Tots Flyin

We at RDRC would like to take a moment to personally thank everyone that was gracious enough to contribute gifts, money and effort to our recent two day Fly for Tot's Flyin. Your contributions provided us with the ability to put

on one of the most successful and largest RC show in North Carolina's history. The response from the general public and fellow modelers has been overwhelming, which has resulted in promoting the growth of RC modeling and flying.

On a grander scale, the event goals were not only met but exceeded and gave us the opportunity to grant a terminally ill child's wish.

On October 25, 2006 we were honored to have Joshua Wilkinson and Shawn Smith attend our monthly meeting. They represent "Smiles For Little Faces", a North Carolina Christian based charity.

RDRC Vice President Larry Lewis, who was the major event organizer, started by thanking all the event sponsors for their donations, and a special thanks to the club members who worked tirelessly for months to ensure a top notch show.

We as a club pledged to donate 100% of the proceeds from the Fly For Tot's event. Larry along with the club president James Fowler, made a presentation to Smiles for Little Faces foundation for the amount of \$10,000.00.

For additional Pictures of all our events visit RDRC website at: <http://www.rd-rc.org/>

Thank You  
RDRC Members
