

Lowering Kit- Kawasaki

KLR 650 Adjustable Lowering Kit

Scotworks new rear suspension adjustable lowering kit for the Kawasaki KLR 650 Dual Purpose Motorcycle gets the seat of your bike down lower so that it is easier to ride, especially for the shorter riders. Our kit also gives you great handling by lowering your center of gravity. Our lowering kit is fully adjustable so that you can now lower your bike to fit you. Lower the rear suspension of your KLR 650 down 1, 2 or 3 inches in just a few minutes. The height can be easily changed to fit the rider.

Scotworks KLR 650 adjustable lowering kit replaces your OEM suspension links, and are black powder coated for lasting durability. Manufactured from high strength steel, they will never bend or break. Compare this to the other non-adjustable kits on the market made of aluminum. This is the only adjustable lowering kit available for the KLR 650 anywhere! This kit is easy to install and requires no additional modifications to your motorcycle.

The KLR 650 Adjustable Lowering Kit features:

- ***Allows you to adjust your seat height down 1, 2, or 3 inches, to fit your riding style.***
- ***Black powder coated for lasting durability.***
- ***Manufactured from high strength steel- will not bend or break on rough terrain.***
- ***Highly detailed installation instruction manual, including details on how to lower your front suspension***
