THANK YOU FOR CHOOSING KURYAKYN!

NOTE

These Hand Control Covers will attach over the top of your OEM hand controls. It may be necessary to loosen and re-adjust the position of the clutch and brake master cylinder/lever clamp assembly to accommodate the Hand Control Covers.

PROCEDURE

STEP 1 The Left Hand Control Cover uses two 8-32 X 1/2" Button Head Cap Screw fasteners. Remove the two fasteners to disassemble the two halves of the Left Hand Control Cover.

STEP 2 Set the Left Upper Cover in place over the OEM controls. Hold the Left Lower Cover in place and fasten the two halves of the cover using the two 8-32 X 1/2" Button Head Cap Screws you removed in STEP 1.

STEP 3 The Right Hand Control Cover uses three 8-32 X 1/2" Button Head Cap Screw fasteners. Remove the three fasteners to disassemble the two halves of the Right Hand Control Cover.

STEP 4 Set the Right Upper Cover in place over the OEM controls. Position the Right Lower Cover so that the "start" button comes through the square hole in the cover and hold it in place. Fasten the two halves of the cover using the three 8-32 X 1/2" Button Head Cap Screws you removed in STEP 3

STEP 5 Make sure all fasteners that were loosened in this installation are tightened snugly.

Ride On!
